

JUNE 2011

MONTHLY REPORT

Queensland Reconstruction Authority

Message from the Chief Executive Officer

Major General Mick Slater
Chairman
Queensland Reconstruction Authority

Dear Major General Slater

It is with pleasure that I present the fourth monthly report to the Board of the Queensland Reconstruction Authority (the Authority).

The Authority was established under the *Queensland Reconstruction Authority Act 2011* following the unprecedented natural disasters which struck Queensland over the recent summer months. The Authority is charged with managing and coordinating the Government's program of infrastructure reconstruction and recovery within disaster-affected communities.

Rebuilding and reconstruction progress continues to be made in line with the State Plan, released last month. This report provides activity status updates of tasks outlined in the State Plan and highlights that in excess of 25% of all key tasks have been completed.

As was the case last month, the June Monthly Report contains a series of headline metrics associated with each of the lines of reconstruction. These have been updated since the May Report and will continue to evolve as the Authority advances through the Recovery and Reconstruction Phases.

Some of the Recovery and Reconstruction highlights contained in this monthly report include:

- an additional 307 kilometres of the affected State road network has been recovered since last month
- 33 national parks have reopened since 4 May 2011
- 230 corporate donations have now been provided through the Join Forces Program, and
- the Authority's planning activities continued to gain momentum during the month highlighted by the turning of the sod at the Grantham Reconstruction Area on 7 June 2011.

The June report shows that the State is continuing to make positive progress in its recovery.

I commend the report to you and recommend its release to the Minister and the public pursuant to Section 41 of the Queensland Reconstruction Authority Act.

Yours sincerely

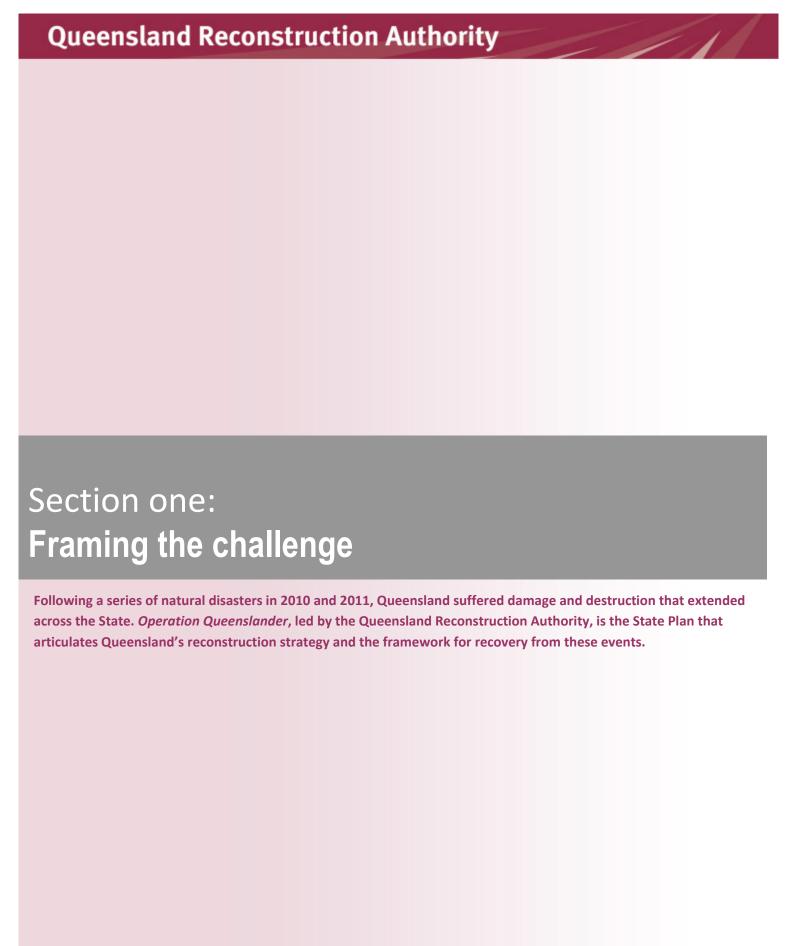

Graeme/Newton

Chief Executive Officer

Queensland Reconstruction Authority

1. Framing the Challenge

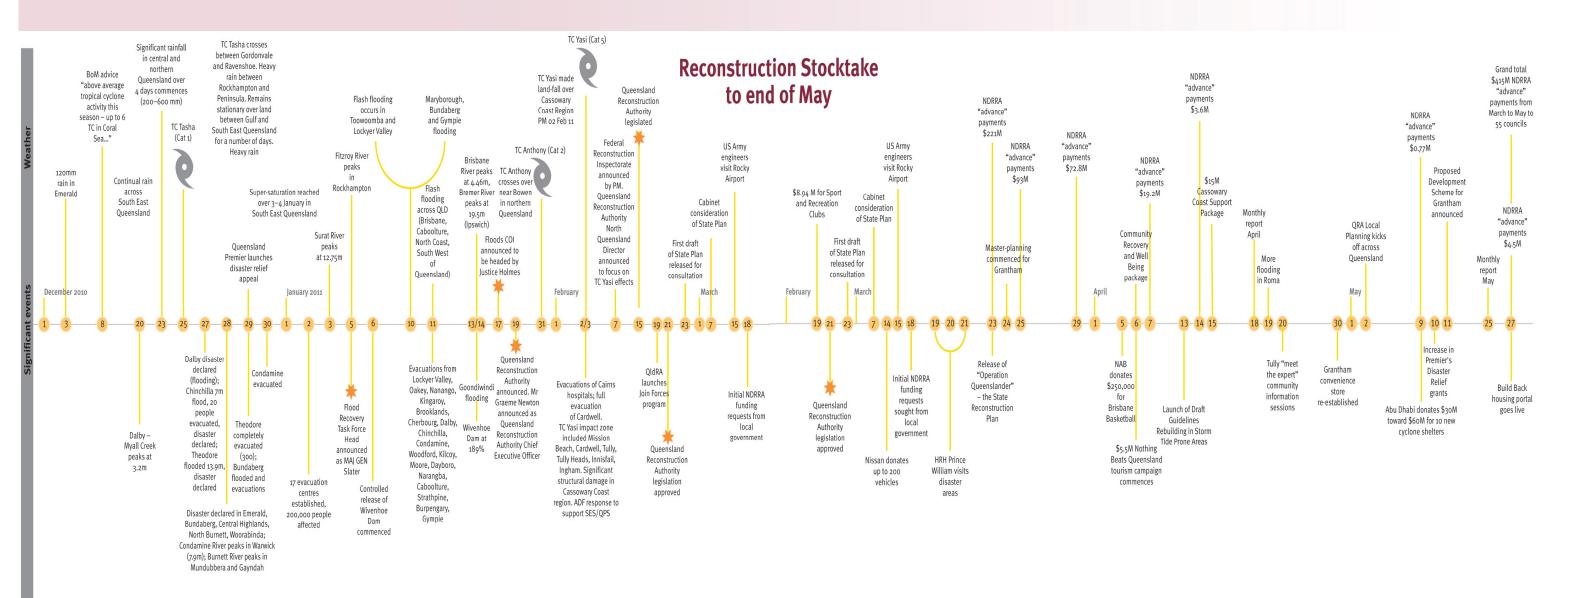

Between November 2010 and April 2011, Queensland was struck by a series of natural disasters. Extensive flooding caused by periods of extremely heavy rainfall, destruction caused by a number of storm cells including Cyclones Tasha, Anthony and Yasi, and subsequent monsoonal flooding including in the Maranoa, have resulted in all of Queensland being declared as disaster affected.

In response to the disaster events the Queensland Government established the Queensland Reconstruction Authority (the Authority), pursuant to the *Queensland Reconstruction Authority Act 2011*. The Authority's mission is to reconnect, rebuild and improve Queensland communities and its economy.

The activities of the Authority will occur under the auspices of a comprehensive and integrated State Community, Economic and Environmental Recovery and Reconstruction Plan, also known as *Operation Queenslander* (the State Plan or Plan). This Plan outlines a roadmap which will be centred along six lines of reconstruction and provides strategic level guidance to reinforce the recovery work that has already begun and sets the framework for rebuilding and improving Queensland.

The Authority will be responsible for providing central coordination, control, funding and reporting across these activities. Responsibility for delivery will be decentralised across responsible agencies aligned with the six lines of reconstruction.

The natural disaster events that led to the creation of the Authority, and those that have occurred following the establishment of the Authority, are summarised on the following page.

1.1 Declarations

In the period between November 2010 and April 2011, Commonwealth and State Natural Disaster Relief and Recovery Arrangements (NDRRA) were activated in all local government areas in Queensland.

There were four disaster declarations which activated these measures, spanning a series of events:

- 'Queensland Flooding and Tropical Cyclones Tasha and Anthony, November 2010 to February 2011'
- 'Severe Tropical Cyclone Yasi on 2 February 2011'
- 'Queensland Monsoonal Flooding Event on 28 February 2011', and
- 'South West Flooding, April 2011'.

The third and fourth of these declarations were made following the establishment of the Authority. The NDRRA categories invoked by these declarations are detailed in the adjacent map and Appendix A.

The Local Government Areas (LGAs) that are incorporated in the regions illustrated in Figure 1.2 are detailed in Appendix B.

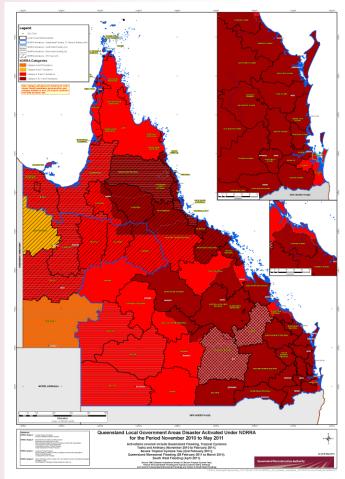

Copies of the instruments of declaration are provided in Appendix C.

A breakdown of the activations by month and region is shown below and illustrates the timing of the weather events in the various regions across Queensland. The various declarations highlight that:

- during December 2010, Southern and Central Queensland were most impacted by the rain depression resulting from Cyclone Tasha
- in January 2011, South East Queensland was affected by the flooding, and
- in February 2011, North and Far North Queensland were hit by Cyclone Yasi.

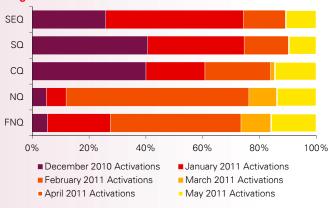

The more recent monsoonal rains have caused further flooding impacts in regional Queensland and all May 2011 activations are in relation to the Community Recovery Package which was made available to all LGAs on 20 May 2011.

2. The Queensland Reconstruction Authority

2.1 Establishment

Legislation

The Queensland Reconstruction Authority Act 2011 (the Act) established the Authority to monitor and coordinate the Government's program of infrastructure reconstruction and recovery within disaster-affected communities.

The Authority was formally established on 21 February 2011.

Minister

The Authority reports to the Premier, as Minister for Reconstruction, through the State Government's Disaster Recovery Cabinet Committee, and to the Board.

Board

The Board oversees the Authority. Membership of the Board consists of:

- Major General Mick Slater (Chair)
- two members nominated by the Australian Government Mr Brad Orgill, Head of The Building the Education Revolution (BER) Implementation Taskforce and Ms Glenys Beauchamp, Secretary of the Department of Regional Australia, Regional Development and Local Government
- one person nominated by the Local Government Association of Queensland Brian Guthrie, former CEO of Townsville City Council, and
- three other persons with expertise or experience in engineering, planning or another field considered appropriate by the Minister

 former BP executive Kathy Hirschfeld, former Director-General Main Roads, Steve Golding, and Jim McKnoulty, an expert in local government planning and development matters.

Functions and Powers

The functions of the Authority include:

- deciding priorities for community infrastructure and community services needed for the rebuilding and recovery of affected communities
- working closely with disaster-affected communities to ensure each community's needs are recognised in the rebuilding and recovery of the communities
- collecting and collating information about community infrastructure and other property, and community services, damaged or otherwise affected in a disaster event
- developing an arrangement for sharing data across all levels of government to facilitate effective and efficient exchange of information to facilitate the rebuilding and recovery of affected communities
- coordinating and distributing financial assistance for affected communities
- putting into effect the strategic priorities of the Board
- facilitating flood mitigation for affected communities and ensuring the rebuilding and recovery of affected communities is effectively and efficiently carried out and appropriate having regard to the nature of the disaster event, and

• if requested by the Minister, providing advice to effect recommendations of the Commission of Inquiry into the floods - particularly any recommendations about flood mitigation or land use planning.

The Authority is not responsible for reviewing events or decisions leading up to the Brisbane floods. This is the responsibility of the Commission of Inquiry.

Relationship with Commonwealth

As well as contributing 75% of all NDRRA funding, the Commonwealth Government has established oversight and accountability measures to ensure value for money is delivered in the rebuilding of disaster-affected regions. These include the following:

- the National Disaster Recovery Committee of Cabinet
- the National Disaster Recovery Taskforce, to provide specialist assistance and advice to Commonwealth Ministers involved in the flood recovery efforts and Commonwealth bodies
- the Prime Minister's Business Taskforce which brings together ten Australian business leaders to assist with business recovery and rebuilding efforts in Queensland, and
- the Australian Government Reconstruction Inspectorate to increase scrutiny and accountability of rebuilding projects.

These committees and taskforces will coordinate and liaise with the Authority.

2.2 Scope of Operations

Purpose

The purpose of the Authority is to monitor and coordinate the implementation of the State Plan across governmental agencies, non-government organisations and key stakeholders by:

- maintaining situational awareness of current and developing operations
- overseeing the implementation of the State Plan, and
- coordinating donor support and expressions of interest.

Key tasks to be carried out by the Authority in achieving its purpose include:

- maintaining situational awareness of current and developing operations
- providing liaison between the Authority and key stakeholders such as Emergency Management Queensland, Queensland Police and government and non-government agencies
- assessing compliance of funding applications with relevant NDRRA and other criteria
- distributing funds for eligible projects
- · measuring reconstruction performance through the collection and maintenance of data to enable reporting against key indicators
- project managing specific projects, programs and initiatives
- monitoring the success and specific recovery initiatives and implementing a post-activity reporting and learning loop communication process, and
- reviewing and assessing offers from international donors and providing recommendations about these to the Queensland Reconstruction Authority Board.

Lines of Reconstruction

The State Plan details six lines of reconstruction for which various Government Agencies have primary responsibility and who report on progress to the Authority. The six lines of reconstruction and the Department or Agency with primary responsibility for each are as follows:

Line of Reconstruction	Primary Responsibility
Human and Social - to restore and strengthen local human services and community capacity through provision of direct assistance individuals and communities, and supporting communities to drive and participate in their own recovery	Department of Communities (DoC)
Economic - to set the conditions to facilitate the rapid restoration of a competitive, sustainable Queensland economy	Department of Employment, Economic Development and Innovation (DEEDI)
Environment - to recover and conserve disaster-affected terrestrial and marine natural resources and ensure that reconstruction activities do not cause environmental harm	Department of Environment and Resource Management (DERM)
Building Recovery - to lead and coordinate the planning and implementation of all statewide building reconstruction functions	Department of Public Works (DPW)
Roads and Transport - to manage the recovery and reconstruction of Queensland's integrated transport environment in order to reconnect Queensland communities and economies	Department of Transport and Main Roads (DTMR)
Community Liaison and Communication - to gain and maintain the confidence of Queenslanders in the reconstruction effort, by providing a regular and consistent source of coordinated public information	Department of the Premier and Cabinet (DPC)

2.3 Queensland Reconstruction Authority Reporting Plan

Reporting Roadmap

Reconstruction **Transition** Recovery Dec 12 – Dec 13 Jan 11 – Jun 11 Jun 11 – Dec 12 Authority established Execution of the Progressive reconstruction handover of Short-term recovery activities reconstruction operations responsibilities The Authority will Development and from the Authority monitor progress implementation of to other agencies across the six lines of State Plan reconstruction • Phase ends when · Phase ends when disaster response milestones are activities are handed to advanced enough to the Authority for allow for transition reconstruction from the Authority to other agencies Reporting will occur throughout the three phases

There are three phases of Authority activities:

In the early months, the majority of reportable information will be related to the Recovery Phase. This will change progressively in subsequent months as further activities are undertaken across the various phases.

Reporting Metrics

The State Plan contains a range of tasks and reporting metrics for each of the six lines of reconstruction.

Each month, progress reporting will occur against a series of headline metrics.

Additional sub-tasks and sub-metrics contained in the State Plan will be adopted as internal management and delivery tools by the sub-committees responsible for each line of reconstruction.

Headline metrics for each of the six lines of reconstruction will be reviewed and modified periodically to ensure they are consistent with the activities associated with phase activity.

Information Sources

The Authority is responsible for collecting and maintaining data and for reporting against key performance indicators to measure reconstruction performance.

Some information will be collected by the Authority directly.

Other information relating to activity across the six lines of reconstruction will be collected and reported to the Authority by the lead Agency responsible for each line of reconstruction sub-committee.

Recovery Phase Reporting

The reportable headline metrics are reviewed regularly in consultation with the lines of reconstruction sub-committees to ensure that they remain relevant to the activities of the Authority. The current reportable metrics are summarised in the table below:

Headline Metrics for Month	nly Reporting			
Human and Social (Section 3.2)	Financial assistance for individuals and households affected by the disasters	Housing assistance where applicant was a victim of the disasters	Schools and community infrastructure opened	Financial assistance for charities and not-for-profit organisations that suffered damage
Economic (Section 3.3)	Financial assistance for small businesses and primary producers affected by the disasters	Coal export tonnage	Percentage growth employment	Tourism visitation numbers
Environment (Section 3.4)	Percentage of impacted resource projects operating within environmental authorities and discharge limits	National parks open for conservation management	Percentage of impacted water treatment and sewage plants (repairs completed and operating at pre-disaster capacity)	Natural resources management data
Building Recovery (Section 3.5)	Insurance data (number of claims, estimated reserved value and claims paid)	• =	Government buildings restored and operational	Residential housing data
Roads and Transport (Section 3.6)	Percentage (%) of State- owned road network damaged and repaired	Percentage (%) of State- owned rail network damaged and repaired	Number of ports accessible	Total State-owned bridges and culverts damaged and repaired
Community Liaison and Communication (Section 3.7)	Join Forces Program data	Data on communication with the Authority	Data on the number of visits to the Authority website	

During the Recovery Phase the headline metrics will be reported at a whole of State or regional level based on the following five regions:

- South East Queensland
- Southern Queensland

- Central Queensland
- · North Queensland
- Far North Queensland

It should be noted that data was not available for all these metrics for the purposes of this monthly report.

Reconstruction Phase Reporting

During the Reconstruction Phase the metrics will be expanded to include:

- · progress by infrastructure type
- progress at a Local Government Authority or Agency level, and
- expenditure by funding source.

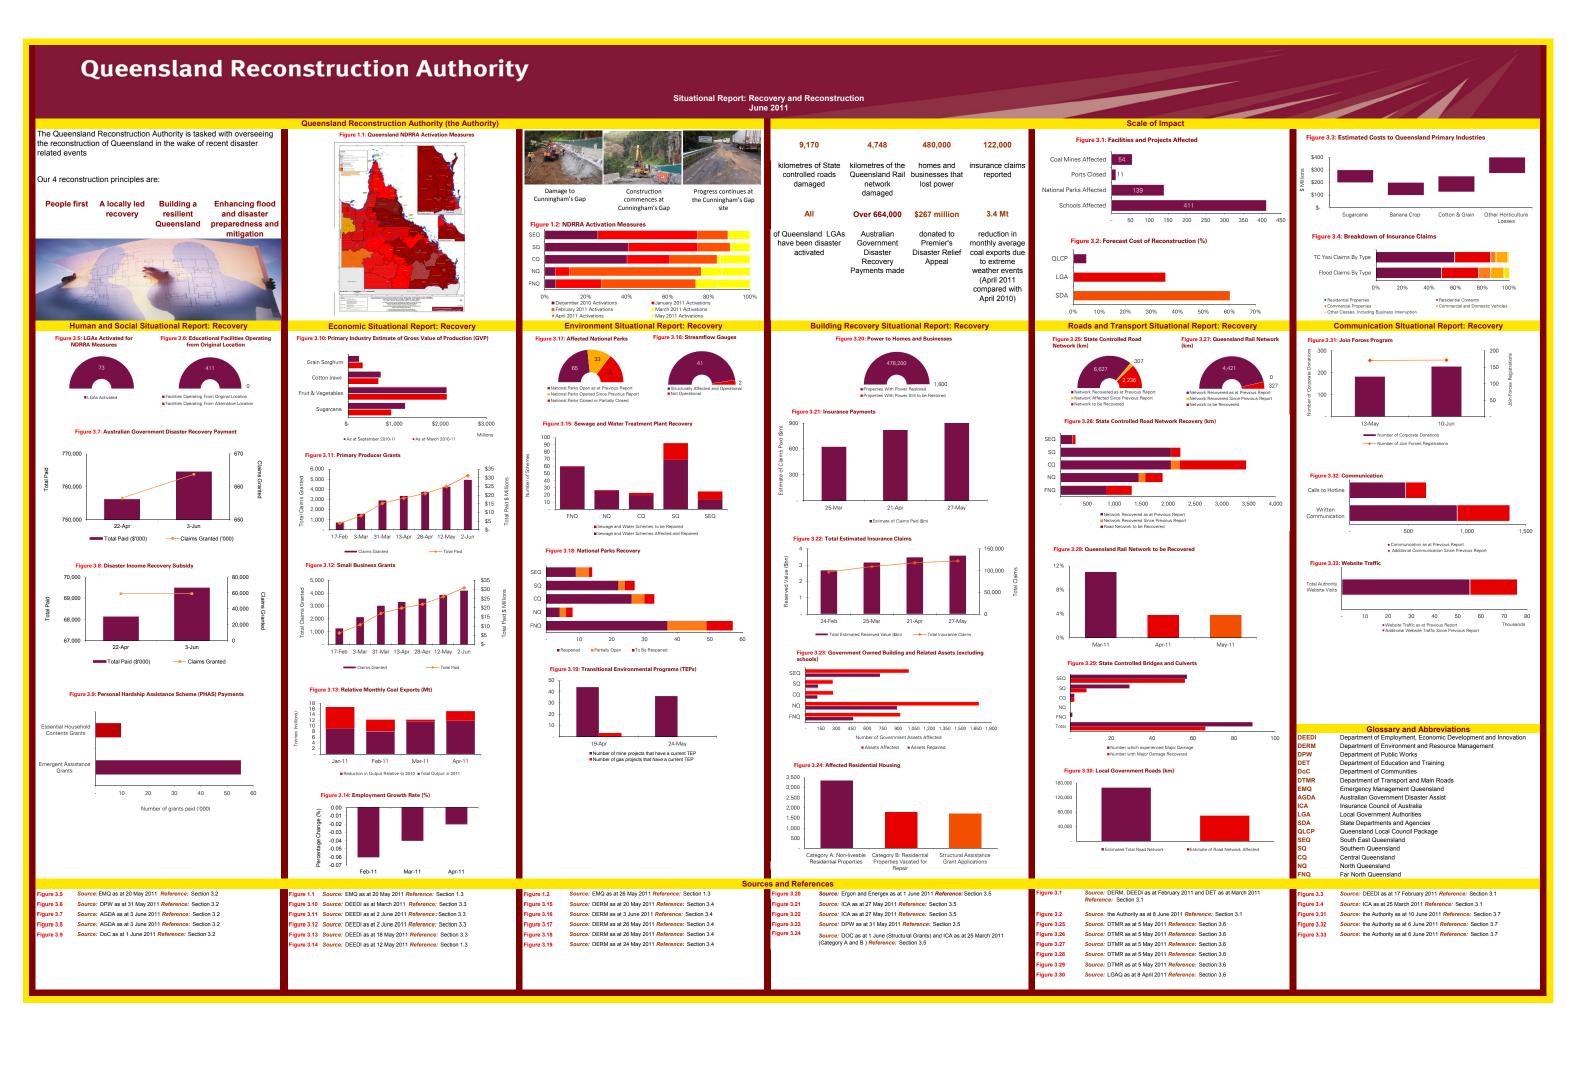

This information will be derived from information on specific projects and funding applications collected from Local Government Authorities (LGAs) and other responsible Agencies.

Transition Phase Reporting

Transition Phase reporting will be developed towards the completion of the Reconstruction Phase.

Section three: Situational report: recovery and reconstruction

Operation Queenslander is centred along six lines of reconstruction: Human and Social, Economic, Environment, Building Recovery, Roads and Transport and Communication and Community Liaison. Operation Queenslander identifies key milestones against which reconstruction progress is measured. Each line of reconstruction subcommittee developed an Implementation Plan to support the achievement of each of these key milestones. This section reports the progress made across these lines of reconstruction and includes a summary dashboard of quantitative performance indicators.

11930636 1

3. Situational Report: Recovery and Reconstruction

3.1 Scale of Impact

Some statewide statistics that provide an overview of the scale of the impact include the following:

- all of Queensland was disaster activated as at 11 March 2011
- approximately 136,000 residential properties were directly affected
- 9,170 kilometres of Queensland's State road network were affected
- 4,748 kilometres of the Queensland Rail network were affected
- over 480,000 homes and businesses were without power
- approximately 122,000 insurance claims were reported with an estimated reserved value of \$3.6 billion as at 27 May 2011
- over 55,000 applications for emergent assistance grants were paid as at 1 June 2011, and
- \$267 million had been donated to the Premier's Disaster Relief Appeal as at 3 June 2011.

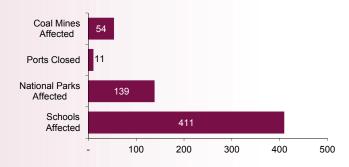

In addition, a number of coal mines, ports, national parks and schools across Queensland were affected. The number of national parks affected has been revised down from 142 to 139 to reflect only those parks that were directly affected by the natural disasters. *See Figure 3.1*

As a result of the natural disasters that occurred across Queensland from November 2010 to April 2011, the forecast cost of reconstruction is significant. Approximately 60% of the forecast cost is expected to be distributed through State Departments and Agencies (SDAs), 35% is expected to be distributed through Local Government Authorities (LGAs) and 5% has been allocated to the Queensland Local Council Package (QLCP). *See Figure 3.2*

The losses to primary industries are significant. Specific horticultural loss estimates include sugarcane (ranging from \$200 million to \$300 million), cotton and grain (ranging from \$125 million to \$250 million) and bananas (ranging from \$100 million to \$200 million). *See Figure 3.3*

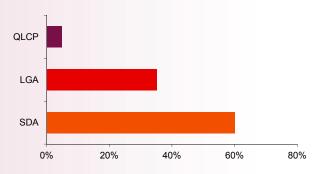

Of the insurance claims made as at 25 March 2011, the majority related to residential properties. 59% of Cyclone Yasi claims and 49% of flood claims are for residential properties. Total insurance claims increased by approximately 4,000 between 21 April 2011 and 27 May 2011. *See Figure 3.4*

- Residential Contents
- Commercial Properties
- Commercial and Domestic Vehicles
- Other Classes, Including Business Interruption

Source: ICA as at 25 March 2011

3.2 Human and Social

The objective of the human and social line of reconstruction is to assist individuals and communities to recover from the effects of the disasters.

As a result of the natural disasters all of Queensland's 73 LGAs were activated for NDRRA measures and 411 schools across the State were affected. As at 31 May 2011, all affected schools were operating at their original location including Milpera State School which opened 23 May 2011. See Figure 3.5 and 3.6

There are a number of financial assistance grants available to those affected by the natural disasters, including Australian Government Disaster Recovery Payments (AGDRP), Disaster Income Recovery Subsidies (DIRS) and Personal Hardship Assistance Schemes (PHAS).

As at 3 June 2011, approximately 664,000 AGDRP grants had been made, totalling \$765 million in payments. Payments made have increased by 8,000 payments and \$9 million since last month's report. Approximately 60% of the claims were flood related. *See Figure 3.7*

As at 3 June 2011, approximately 60,000 DIRS payments had been granted, totalling \$69 million. Approximately 90% of the claims were flood related. Payments made have increased by approximately \$1 million since 22 April 2011. See Figure 3.8

As at 1 June 2011, more than 65,000 Personal Hardship Assistance Scheme (PHAS) grants had been paid, an increase of 1,000 grants since 27 April 2011. *See Figure 3.9*

Non-profit organisations are also eligible for funding assistance under NDRRA and non-NDRRA grant arrangements. The following assistance has been provided:

- As at 2 June 2011, 162 grants had been paid to charities and non-profit organisations totalling approximately \$1 million in paid claims. The number of paid claims has increased by 52 since 28 April 2011 (Source: DEEDI as at 2 June 2011).
- As at 1 June 2011, 560 Sport Flood Fight Back Scheme grants had been paid totalling approximately \$13.4 million. One additional claim has been paid since 20 April 2011 (Source: DoC as at 1 June 2011).

Human and Social progress against Implementation Plan

The progression of key tasks against the Implementation Plan for the Human and Social line of reconstruction is illustrated below.

As at 6 June 2011, two key tasks had been completed. All other key tasks are in the process of being implemented and are forecast to be completed within their proposed timeframes.

Of these tasks, the following amendments have been made to the completion timelines forecast in the last report:

- Key task 5 requires the ongoing assessment of community needs in relation to funding requirements. This task is expected to continue throughout the 2011 calendar year and has therefore been extended until December 2011.
- Key task 8 involves the transitioning of local health, social, education and community services to a business as usual state. While significant progress in relation to this task has been made, it is expected that the human and social line of reconstruction will continue to provide direct support to Non-Government Organisations until December 2011.
- Key task 10 relates to the coordination and support of community recovery and coordination services and was originally due to be
 completed in May 2011. However, the Department of Communities has now established ongoing Community Recovery Referral
 and Information Centres (CRRICs) in response to the severity of the incident and ongoing community need. These will operate
 throughout 2011 and provide a one-stop-shop for disaster-affected people to access information about the recovery effort and
 available services, and referral to services such as housing, personal support, financial counselling and financial assistance. Twelve
 CRRICs are currently operating in severely impacted areas of Queensland.
- Key task 12 has been substantially completed, however, due to the ongoing nature of coordinating the volunteering effort across the State the estimated completion date has been extended to December 2011.

- 1 Blue markers indicate a key task that has been completed on or before planned schedule
- 1 Green markers indicate a key task that is progressing satisfactorily with a low level of risk that completion will not occur by the set timeframe
- Orange markers indicate a key task that is progressing satisfactorily with a moderate level of risk that completion will not occur by the set timeframe
- 1 Red markers indicate a key task that requires further attention to meet the proposed deadline
- Hollow markers indicate the timeframe by which a key task was previously expected to be completed
- --- Arrows indicate a key task is undertaken on an ongoing basis

	Key t	asks:		
	1	Critical health, social, education and community services restored and maintained	8	Local health, social, education and community services transitioned to
	2	Emergency assistance payments, Natural Disaster Relief and Recovery Arrangements (NDRRA) grants and other relevant funding sources activated and processed	9	Displaced householders connected to housing assistance and support mechanisms
	3	Public information and advice on community and public health issues provided	10	Community recovery and coordination centres and outreach teams established, managed and monitored
ľ	1	Reconstruction communication strategy to manage community expectation and inform communities contributed to	11	Additional services including counselling, personal support and specialised mental health services provided
	5	Commonwealth and Queensland Government funding for additional costs associated with flood related service delivery sought	12	Coordination of volunteer efforts supported and monitored
	5	Community development support, including community engagement and capacity building activities provided	13	Subordinate implementation plans to achieve key tasks at project level developed April 2011
	7	Development, implementation and monitoring of both cross-cutting planning and local community and economic recovery and reconstruction		

plans supported

3.3 Economic

The economic line of reconstruction is focussed on returning businesses back to operation and then growing these businesses and improving economic conditions overall across the State.

Primary industry estimates of Gross Value of Product (GVP) have generally been revised down as a result of the impacts of the natural disasters. Sugarcane and cotton GVP has been the most adversely affected. *See Figure 3.10*

Due to this impact, Primary producers in specific regions have access to NDRRA grants to assist them. As at 2 June 2011, approximately 5,000 grants totalling \$31 million had been paid. This represents a 32% increase in the number of grants paid since the May Report (28 April 2011). See Figure 3.11

The impact of the weather events on small businesses has been significant. As at 2 June 2011, approximately 4,200 small business grants totalling \$31 million had been paid. This represents a 17% increase in the number of grants paid since the May Report (28 April 2011). *See Figure 3.12*

The mining industry has been impacted by the heavy rainfall and flooding in Queensland. All Queensland coal mines were affected resulting in decreased export tonnage. However, export tonnages are beginning to rebound, with April 2011 throughput increasing by 4% on the March figure and the nominal value of Queensland coal exports is estimated to increase by 22% to \$30.8 billion in 2010/11. *See Figure 3.13*

Employment growth rate continues to contract on a month on month basis from February however the rate of contraction has begun to slow. *See Figure 3.14*

Factors other than the natural disasters may affect the aforementioned coal export and employment figures.

Economic progress against Implementation Plan

The progression of key tasks against the Implementation Plan for the Economic line of reconstruction is illustrated below.

As at 6 June 2011, four key tasks had been identified as being completed. All other key tasks are in the process of being implemented and are forecast to be completed within their proposed timeframes.

No deviations in key task timeframes have been identified for the Economic line of reconstruction.

- 1 Blue markers indicate a key task that has been completed on or before planned schedule
- 1 Green markers indicate a key task that is progressing satisfactorily with a low level of risk that completion will not occur by the set timeframe
- 1 Orange markers indicate a key task that is progressing satisfactorily with a moderate level of risk that completion will not occur by the set timeframe
- Red markers indicate a key task that requires further attention to meet the proposed deadline
- Hollow markers indicate the timeframe by which a key task was previously expected to be completed
- Arrows indicate a key task is undertaken on an ongoing basis

Key t	asks:		
1	Queensland's competitive and sustainable economy restored	12	A 'Job and Skills' package produced
2	The prioritisation of the Queensland Reconstruction Authority's reconstruction projects contributed to	13	Jobs Assist services are expanded to disaster affected communities
3	Consultation with economic stakeholders and peak industry bodies maintained	14	A marketing campaign providing positive messages about Queensland's economy and major industries is implemented and provided to investors and trading partners
4	A 'buy local' campaign to restore trade and support employment developed for government consideration	15	Partnerships with industry bodies are established to provide systemic, sectoral support
5	Local governments worked with to establish local recovery committees	16	Tailored, simple packages of information specific to business needs are provided
6	Local government capacity and the need for economic support assessed and responded to	17	Measurement and evaluation mechanisms specific to the economic line of reconstruction are established
7	Online social networking tools used to share information and build 'self-help' communities	18	Reductions in planning, regulatory and other obstacles that impact unnecessarily on business confidence and recovery are coordinated
8	Business advisors engaged through intermediaries and industry partners to provide face-to-face advice	19	Supply chain disaster recovery plans developed
9	A 'Fair Go Reconstruction' hotline is provided to check offers of reconstruction services and associated complaints	20	Resolution of cross-cutting issues coordinated
10	Advice on Natural Disaster Relief and Recovery Arrangements (NDRRA) measures provided	21	Development and implementation of local community and economic recovery and reconstruction plans supported
11	The Queensland Regionalisation Strategy and Queensland Infrastructure Plan are progressed	22	Project land and infrastructure development activities aligned to economic reconstruction priorities

3.4 Environment

The environment line of reconstruction is focussed on recovering and conserving natural resources affected by the Queensland flood and cyclone disasters and making sure recovery and reconstruction efforts do not impact the State's natural resources.

Across Queensland 84 sewerage schemes and 104 water schemes were affected by natural disasters. As at 20 May 2011, all affected sewerage and water schemes were operating at pre-disaster capacity, including 17 sewerage schemes and 18 water schemes that still required permanent repairs or replacement. A scheme can be operating at predisaster capacity, yet still require repairs as a result of the disasters. See Figure 3.15

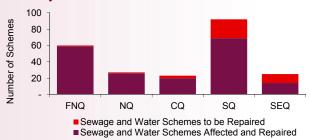

Subsequent to the May Report, further assessments have been undertaken to ascertain whether streamflow gauges have been structurally affected. Of the 389 streamflow gauges across the State, 43 are believed to have been structurally affected by the extreme weather events. As at 3 June 2011, 41 of the structurally affected gauges were operational.

See Figure 3.16

Of Queensland's 279 national parks, 139 national parks were closed or partially closed due to the extreme weather events. Since the May Report, an additional 33 national parks have been reopened, bringing the total national parks opened across the State to 238. Only 17 national parks remained closed due to natural disasters, and 24 remained partially closed. See Figure 3.17 and Figure 3.18

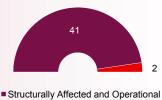

Transitional Environmental Programs (TEPs) are issued to mine sites to temporarily authorise de-watering activities (i.e. to remove flood waters) that are completed outside of its agreed Environmental Authority conditions. TEPs are subject to special conditions and specified timeframes and expiry dates. As at 24 May 2011, applications had been received for 80 mine site TEPs and 7 coal seam gas site TEPs. During the month mine sites with current TEPs reduced by 8. There are no coal seam gas sites with current TEPs. See Figure 3.19

Environment progress against Implementation Plan

The progression of key tasks against the Implementation Plan for the Environment line of reconstruction is illustrated below.

As at 6 June 2011, two key tasks had been identified as being completed. All other key tasks are in the process of being implemented and are forecast to be completed within their proposed timeframes.

No deviations in key task timeframes have been identified for the Environment line of reconstruction.

- 1 Blue markers indicate a key task that has been completed on or before planned schedule
- 1 Green markers indicate a key task that is progressing satisfactorily with a low level of risk that completion will not occur by the set timeframe
- 1 Orange markers indicate a key task that is progressing satisfactorily with a moderate level of risk that completion will not occur by the set timeframe
- 1 Red markers indicate a key task that requires further attention to meet the proposed deadline
- Hollow markers indicate the timeframe by which a key task was previously expected to be completed
- ---- Arrows indicate a key task is undertaken on an ongoing basis

Key t	asks:		
1	Rehabilitation of the natural environment and community assets including reserves, parks, waterways and wildlife coordinated and prioritised	10	Event impacts on the natural environment and natural resources assessed
2	Strategies to reduce future impacts on the natural environment in both urban and rural landscapes, focusing on long-term resilience and sustainability in the reconstruction effort, implemented	11	Current and potential environmental and natural resource issues monitored and advice provided
3	Development of sustainable, disaster resilient environment infrastructure supported	12	Recovery of coal and coal seam gas mining facilitated to mitigate environmental harm
4	Damaged infrastructure on state protected areas restored	13	Communities, Aboriginal and Torres Strait Island people, environmental bodies and interest groups engaged in the consultation and decision making processes
5	Ecological assessment and restoration of protected areas, ecosystems and species conducted	14	Environmental consequences of reconstruction operations mitigated through planning, monitoring, assessment and advice
6	Assessment and reconstruction of soil health and biodiversity in upland areas and flood plains conducted	15	The expeditious repair of water and sewerage infrastructure supported by facilitating environmental and planning approval processes
7	Community involvement in the recovery of landscapes and ecosystems facilitated	16	Development and implementation of both cross-cutting planning and local community and economic recovery and reconstruction plans supported
8	Waste and contaminated land management conducted	17	Subordinated implementation plans to achieve key tasks at project level developed by April 2011
9	Input to whole of state environment elements of the state reconstruction operational plans provided		

3.5 Building Recovery

The building line of reconstruction is aimed at coordinating the planning and implementation of the statewide rebuilding program. Its particular focus is on housing and maximising the efficiency of resource allocation.

Power was lost in approximately 480,000 homes and businesses. As at 1 June 2011, less than 0.5% of affected homes and businesses remained without power. It is believed that the majority of homes and businesses that remain without power are still in the reconstruction phase. *See Figure 3.20*

As at 27 May 2011, an estimated \$1.02 billion of disaster related insurance claims had been paid. This represents an increase of \$200 million or 24% from 21 April 2011.

See Figure 3.21

As at 27 May 2011, approximately 122,000 insurance claims had been made as a result of the floods and Cyclone Yasi. The total estimated reserved value was \$3.6 billion. This compares to approximately 118,000 claims made as at 21 April 2011. It is understood that reserved value represents the total estimated value of claims received. *See Figure 3.22*

In excess of 4,100 Government owned buildings and related assets (excluding schools) were affected by the extreme weather events. Most heavily impacted was North Queensland with over 1,600 buildings affected. Of the buildings and related assets affected, over 55% had been repaired as at 31 May 2011. *See Figure 3.23*

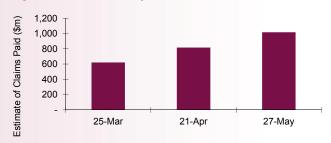

It is currently estimated that in excess of 6,700 residential properties incurred significant damage due to the severe weather events. Of these, in excess of 3,300 were classified by the Insurance Council of Australia (ICA) as Category A: non-liveable residential properties, and in excess of 1,700 were classified as Category B: residential properties vacated for repair. As at 1 June 2011, in excess of 1,700 structural assistance grant applications had been made. This estimate has decreased following further on the ground assessments. See Figure 3.24

Building Recovery progress against Implementation Plan

The progression of key tasks against the Implementation Plan for the Building Recovery line of reconstruction is illustrated below.

As at 6 June2011, nine key tasks had been identified as being completed.

No deviations in key task timeframes have been identified for the Building Recovery line of reconstruction.

	Recovery phase												Reconstruction phase											Transition phase											
					20	11											20	12											20	13					
J	F	М	Α	М	J	J	Α	s	О	N	D	J	F	М	Α	М	J	J	Α	s	0	N	D	J	F	М	Α	М	J	J	Α	s	О	N	D
4		3	2		-1	5																													7
	10	8 9	14																				13												12

- 1 Blue markers indicate a key task that has been completed on or before planned schedule
- Green markers indicate a key task that is progressing satisfactorily with a low level of risk that completion will not occur by the set timeframe
- 1 Orange markers indicate a key task that is progressing satisfactorily with a moderate level of risk that completion will not occur by the set timeframe
- 1 Red markers indicate a key task that requires further attention to meet the proposed deadline
- Hollow markers indicate the timeframe by which a key task was previously expected to be completed
- Arrows indicate a key task is undertaken on an ongoing basis

Key t	asks:		
1	Solutions for temporary and long-term accommodation developed and implemented	8	Department of Communities Structural Assistance Grant assessments supported and contractor engagement strategy developed
2	Damage to building stock, particularly housing, assessed	9	Appeal Fund process supported and contractor engagement strategy developed
3	Government building assets returned to operational state	10	Community access to independent building repair advice facilitated
4	Repair of identified iconic buildings facilitated	11	Action required to address any regulatory impediments to building recovery identified and recommended
5	Repair/rebuild approach for community assets determined	12	Progress of building recovery program monitored and reported on
6	Medium to long-term demolition, repair and rebuilding program coordinated and prioritised	13	Development and implementation of both cross-cutting planning and local community and economic recovery and reconstruction plans supported
7	Reconstruction supply chain activities supported, monitored and advised upon	14	Subordinate implementation plans to achieve key tasks at project level developed by April 2011

3.6 Roads and Transport

The roads and transport line of reconstruction is aimed at reconnecting people and enabling the re-supply communities across the State.

Network recovery is defined as the recovery of the network to post speeds and legal load limits. A road or rail line may be recovered but operating below full capacity and require repairs to restore it to full operating capacity.

As a result of the natural disasters, 9,170 kilometres of State controlled roads, representing 27% of the State road network, were affected. Of these, 6,934 kilometres had been recovered as at 5 May 2011. This represents additional road recovery of 307 kilometres since 13 April 2011. See Figure 3.25 and Figure 3.26

The Queensland Rail network was also affected by the natural disasters with 4,748 kilometres of network impacted. Of these, 4,421 kilometres had been recovered as at 5 May 2011, suggesting that 4% of the Queensland Rail network was yet to be recovered, comprising:

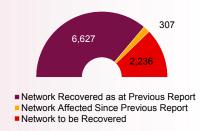

- approximately 150 kilometres between Normanton and
- approximately 125 kilometres between Monto and Taragoola
- approximately 25 kilometres between Wurba Junction and Springsure, and
- approximately 25 kilometres between Brookstead and

Queensland Rail indicates that the networks to be recovered are not having a major impact on current services. See Figure 3.27 and Figure 3.28

Figure 3.27 Queensland Rail Network (km)

Source: DTMR as at 5 May 2011

Figure 3.28 Queensland Rail Network to be Recovered

Source: DTMR as at 5 May 2011

Of the 20 ports in Queensland, 11 were affected by the natural disasters. As at 31 March 2011, all had returned to full operation.

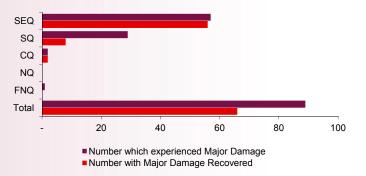

Across Queensland, 89 State controlled bridges and culverts incurred major damage due to the natural disasters. As at 5 May 2011, 66 of these had been recovered. The number recovered has increased by 2 since the May Report. See Figure 3.29

Across Queensland, Local Government Roads make up approximately 147,000 kilometres of the total road network.

The Local Government Association of Queensland has estimated that 70,000 kilometres of local government roads have been affected. This estimate is based on past weather events. *See Figure 3.30*

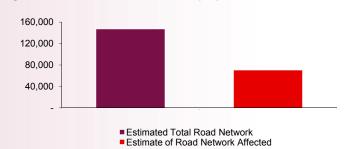

Further analysis of NDRRA submissions and direct contact with the LGAs is ongoing and will facilitate more detailed and accurate information in future reports.

Progress continues at the Cunningham's Gap site

Roads and Transport progress against Implementation Plan

The progression of key tasks against the Implementation Plan for the Roads and Transport line of reconstruction is illustrated below.

As at 1 June 2011, four key tasks had been identified as being completed.

No deviations in key task timeframes have been identified for the Roads and Transport line of reconstruction.

									Reconstruction phase																Tra	ansi	tion	pha	se						
					20	11						2012																20	13						
J	F	М	Α	М	J	J	Α	s	0	N	D	J	F	М	Α	М	J	J	Α	s	0	N	D	J	F	М	Α	М	J	J	Α	s	0	N	D
_	→	2																															3

																																	1 0		
-				→	12																														

- 1 Blue markers indicate a key task that has been completed on or before planned schedule
- 1 Green markers indicate a key task that is progressing satisfactorily with a low level of risk that completion will not occur by the set timeframe
- 1 Orange markers indicate a key task that is progressing satisfactorily with a moderate level of risk that completion will not occur by the set timeframe
- Red markers indicate a key task that requires further attention to meet the proposed deadline
- Hollow markers indicate the timeframe by which a key task was previously expected to be completed
- ---- Arrows indicate a key task is undertaken on an ongoing basis

K	ey t	asks:		
1		People and communities reconnected	7	Regional restoration projects and activities developed
2		Transport access for local economies, agriculture and the resource sector ensured	8	Regional restoration activities moderated to develop statewide projects and action
3		Transport reconstruction plan implemented and continually monitored and reviewed	9	Natural Disaster Relief and Recovery Arrangements (NDRRA) submission prepared
4		Restoration projects and activities developed	10	Existing Queensland Transport and Roads Investment Program (QTRIP) reviewed to accommodate NDRRA program
5		Strategic restoration goals, balancing improvement and other strategic needs, established	11	Development and implementation of both cross-cutting planning and local community and economic recovery and reconstruction plans supported
6		Regional needs against restoration goals assessed	12	Subordinate implementation plans to achieve key tasks at project level developed by April 2011

3.7 Community Liaison and Communication

This line of reconstruction is focussed on building stakeholder confidence in the reconstruction by ensuring consistent and regular communication of public information. The following progress has been made during the month:

- Residents in the Far North whose homes were damaged or destroyed during Tropical Cyclone Yasi were able to meet with Queensland Reconstruction Authority officers and experts on May 9 in Tully Heads and Hull Heads. More than 30 groups of residents were able to have discussions with architects, engineers and local builders to obtain advice on rebuilding and repairs.
- As at 10 June 2011, 172 community organisations had signed up for support through the Join Forces Program and 230 corporate donations had been provided.
 See Figure 3.31
- Key recent donation highlights include:
 - The Commonwealth Games Association has pledged \$100,000 for the following Join Forces registered organisations: Bundaberg Netball Association \$25,000; Centenary Little Athletics \$6,500; Herbert River Athletic Club Inc.\$10,000; Herbert River Gun Club Inc. \$25,000; Toowong Bowls Club Inc (Club Toowong) \$30,000; Townsville Rockwheelers Mountain Bike Club Inc. \$3,500.
 - BDO and Clayton Utz are providing pro-bono professional services to the Authority in relation to the Grantham Reconstruction Area.
- Building Services Authority (BSA) audit teams and Queensland Reconstruction Authority officers have visited the Cassowary Coast to undertake damage assessments and ascertain housing reconstruction progress.
- The Authority provides briefings to key industry bodies including the Infrastructure Association of Queensland, Engineers Australia, Queensland Major Contractors Association, Civil Contractors Federation, Consult Australia, Institute of Public Works Engineering Australia and Australian Asphalt Pavement Association. These briefings are held on a regular basis to inform industry bodies and organisations of reconstruction tasks, activities and requirements to enable them to plan for capacity and delivery during the reconstruction over the next few years. The Authority also holds regular meetings with the Department of Transport and Main Roads, Local Government Authorities in relation to these issues.

There are a number of methods available to the public to communicate with the Authority. As at 6 June 2011, the Authority had received 1,364 written correspondence and 653 calls to the dedicated hotline. This represents an increase in communications of 624 since 3 May 2011. *See Figure 3.32*

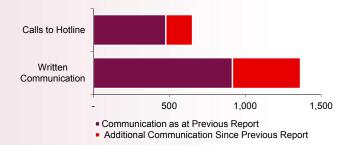

The Authority has a website that provides information to the public. There have been a large number of visits to the website since it was launched on 16 February 2011. As at 6 June 2011, total visits were in excess of 75,000. *See Figure 3.33*

Community Liaison and Communication progress against Implementation Plan

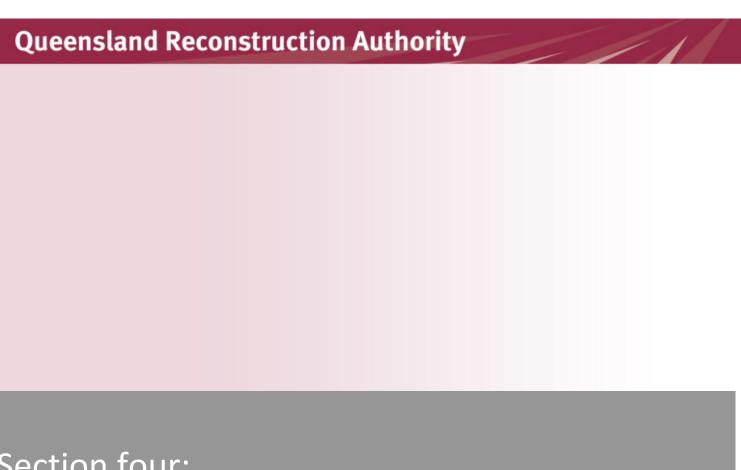

The progression of key tasks against the Implementation Plan for the Community Liaison and Communication line of reconstruction is illustrated below.

No deviations in key task timeframes have been identified for the Community Liaison and Communication line of reconstruction.

- 1 Blue markers indicate a key task that has been completed on or before planned schedule
- 1 Green markers indicate a key task that is progressing satisfactorily with a low level of risk that completion will not occur by the set timeframe
- 1 Orange markers indicate a key task that is progressing satisfactorily with a moderate level of risk that completion will not occur by the set timeframe
- 1 Red markers indicate a key task that requires further attention to meet the proposed deadline
- Hollow markers indicate the timeframe by which a key task was previously expected to be completed
- ---- Arrows indicate a key task is undertaken on an ongoing basis

Key	tasks:		
1	People and communities connected through regular sharing of information	6	Online resources coordinated through a single URL
2	Strategic communication and information advice to the Queensland Government and the Queensland Reconstruction Authority provided	7	Media and communities engaged as key milestones are achieved
3	Developing sentiments identified and advice provided on reinforcement and response measures	8	Measures of progress and effectiveness monitored and reported upon
4	Community liaison and communication activities coordinated	9	Development and implementation of both cross-cutting planning and local community and economic recovery and reconstruction plans supported
5	Long-term messages and themes for public dissemination developed and recommended	10	Subordinate implementation plans to achieve key tasks at project level developed by April 2011

Section four: Planning

The Queensland Reconstruction Authority is legislatively empowered to perform accelerated planning, development and decision-making activities to expedite reconstruction and recovery efforts. This section provides an overview of these activities and an update on how they have been undertaken in the past month.

4. Planning

4.1 Planning Power of the Authority

The Queensland Reconstruction Authority Act 2011 prescribes the governance arrangements of the Queensland Reconstruction Authority and the Authority's Board. It also provides the Authority with special powers to undertake a number of activities, including:

- declaration of declared projects and reconstruction areas
- compulsory acquisition of land this may be for the immediate purposes of the Authority or for longer term goals such as flood mitigation
- entering land and performing acts such as constructing, demolishing and occupying
- · creation of new development schemes
- · directing changes to existing planning schemes, and
- · accelerating decisions and processes of decision makers.

The Act enables the Minister to:

- declare a project for proposed development if the project is to be undertaken in a part of the State that has been directly or indirectly affected by a disaster event, and the declaration is necessary to facilitate flood mitigation or the protection, rebuilding and recovery of affected communities
- recommend to the Governor that a regulation declare a part of the State to be a reconstruction area, and
- declare a declared project (or particular development) in a reconstruction area to be a critical infrastructure project if it is critical or essential for the State or for economic, environmental or social reasons. A critical infrastructure project declaration is not subject to judicial review.

4.2 Grantham Reconstruction Area

The Proposed Development Scheme (the proposed scheme) for the Grantham Reconstruction Area was released for public consultation on 11 May 2011 and is open for submissions until 23 June 2011. The notification of the proposed scheme has been carried out in accordance with Section 66 of the *Queensland Reconstruction Authority Act 2011*. The proposed scheme is available to be viewed on the Authority's website, at Council offices in Gatton as well as copies being available at the Grantham Lucky 7 store.

Once submissions close, the Authority will consider the submissions, finalise a submissions report and provide the submitted scheme for the Minister's consideration. The final scheme will only come take effect when approved via regulation. It is expected that the final Development Scheme will take effect in early August 2011.

Additional progress that has been achieved over the month include:

- The Authority prepared a Temporary Local Planning Instrument (TLPI) on behalf of Council which has enabled earthworks to commence on site. The first sod was officially turned at the new Grantham site by the Deputy Premier and Mayor on Tuesday 7 June 2011.
- The Department of Transport and Main Roads (DTMR) has committed to the design and construction of a grade separated rail crossing. The crossing will be delivered in two stages the first to allow residents wishing to take their homes across to the new estate the opportunity to do so and the second being the permanent flyover. DTMR are aiming to have the permanent flyover completed by early January 2012.

4.3 North Queensland Guidelines

On 20 April 2011 the draft guideline *Part 1 - Rebuilding in Storm Tide Prone Areas* was released for comment. Several sessions with the local community have also been held to guide the residents through the key considerations when looking at the rebuilding process. The Authority is currently

reviewing formal comments from various industry and state agencies to incorporate into the final guideline.

The draft of Part 2 – Wind Resistant Housing is currently with the Cyclone Testing Station for comment. This guideline reiterates existing legislation regarding house designs meeting wind load standards and to alert residents to the importance of roof maintenance in the lead up to the next cyclone season.

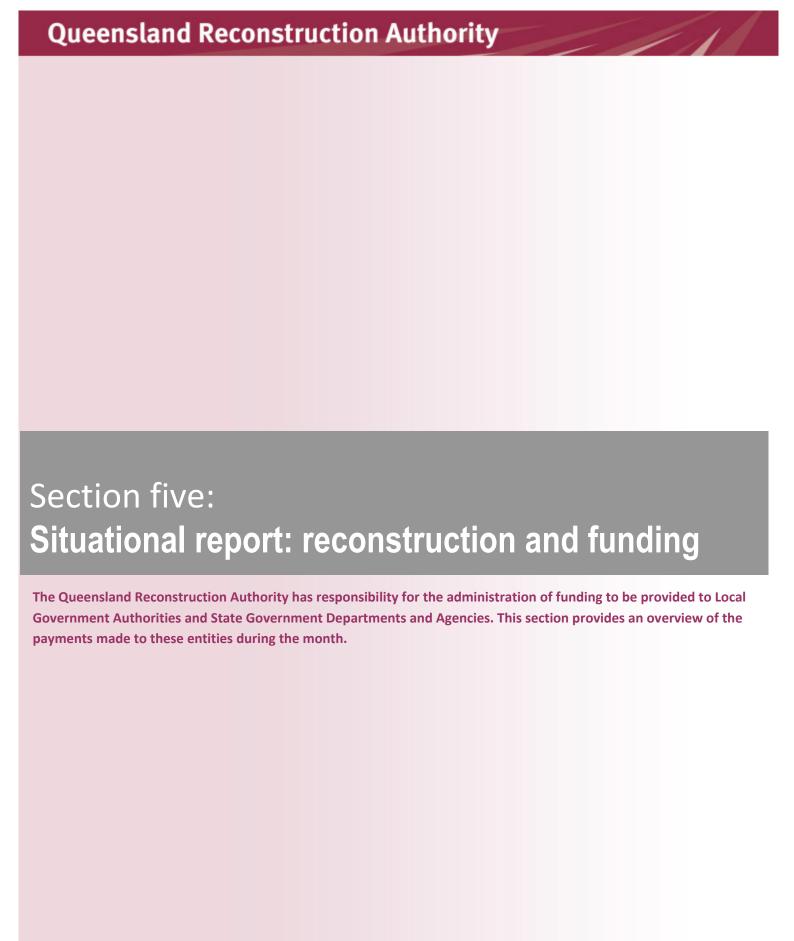

Other proposed guidelines include Part 3 – Preparing for Cyclones and Part 4 – Building in low lying coastal areas will be rolled out in late July/ August.

4.4 Critical Infrastructure

The Authority has commenced a series of work on looking at how critical infrastructure can be better protected in the event of a natural disaster. The first focus of the Authority has been establishing a working relationship with ENERGEX, Powerlink and Ergon Energy for the purpose a project "planning for stronger, more resilient - electrical infrastructure". The project will include a number of deliverables the first of which will look at how an individual, business owner, building owner, local government and electricity distributers can be better prepared in the event of a flood or a cyclone.

4.5 Temporary Local Planning Instruments

The Authority has worked in partnership with the Department of Local Government and Planning to prepare a number of Temporary Local Planning Instruments (TLPI) for Lockyer Valley Regional Council, Ipswich City Council and Brisbane City Council to support the recovery process and long term planning resilience.

5. Situational Report: Reconstruction Funding Overview

5.1 Reconstruction Funding

The Queensland Reconstruction Authority (the Authority) will be primarily responsible for administering and authorising the application of funds for Counter Disaster Operations (CDO) and Restoration of Essential Public Assets (REPA) to both State Departments and Agencies (SDAs) and Local Government Authorities (LGAs).

CDO include any activities undertaken by SDAs and LGAs to provide direct assistance to, and in the protection of, the general public before and during a disaster, including the removal of debris created by the disaster.

REPA, which includes both Restoration Works and Emergent Works, assists eligible State and Local Governments in the restoration of uninsured essential public assets to a predisaster standard or in accordance with current engineering standards or requirements and building codes (or guidelines).

5.2 Local Government Funding Process

Where reconstruction activity relates to works undertaken at a local government level, the process will typically be initiated through an application received from a LGA on the basis of an approach from the Authority.

The LGA can opt to commence works prior to approval of an application, however the Council will carry the risk associated with the outcome of the funding application for such works.

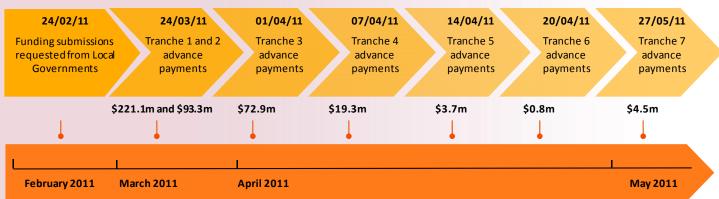

In parallel with the consideration and approval of applications, advance payments are provided to those LGAs which have submitted a compliant Funding Agreement and list of reconstruction projects. The Funding Agreement sets the guidelines for the release of funding to LGAs.

The grant advances will provide impacted LGAs with much needed liquidity to assist them in effectively planning their reconstruction priorities.

On 24 February 2011, the Authority sent an information request to affected LGAs. The information request sought applications, as well as submission of the completed Funding Agreement and a list of reconstruction projects from each LGA.

As a result of responses from LGAs, seven tranches of advance payments have been made since 24 March 2011. Further grant advance payments will be made progressively as remaining LGAs provide required information and their Funding Agreements.

Figure 5.1 Reconstruction funding process to date

Source: the Authority as at 27 May 2011

5.3 Advance Payments to Local Governments

As at 27 May 2011, grant advance payments had been made by the Authority to 55 of Queensland's 73 LGAs, over seven tranches as outlined in Section 5.2. Those remaining LGAs which have not received a grant advance payment account for less than 3% of total budgeted LGA expenditure.

The Authority had processed \$415.5m in grant advance payments to LGAs (excluding GST) as at 27 May 2011. The value of advance payments was determined on the basis of initial LGA damage estimates. *See Figure 5.2*

This represents 3 additional advance payments (\$5.3m) relative to last month. The additional advance payments were made to Barcoo Shire Council (Tranche 6) and the Richmond and Burke Shire Councils (Tranche 7). Advance payments are made irrespective of the status of project applications, however drawdowns do not take place until applications are received and processed. *See Figure 5.3 and Figure 5.4*

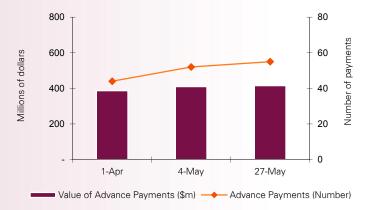

Advance payments to local governments

Advance payments	May 2011	June 2011	Increase
Data as at:	4 May 2011	27 May 2011	
Number	52	55	3
Value (\$m)	\$410.2m	\$415.5m	\$5.3m

Source: the Authority as at 4 May 2011 and 27 May 2011.

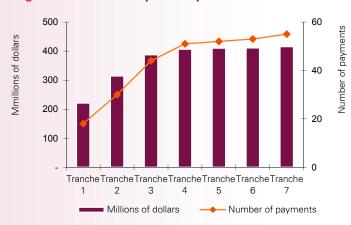

As at 27 May 2011, the Authority had received 225 funding applications from LGAs and SDAs. These applications are currently being processed and further detail in relation to the assessment of these applications will be provided in future reports.

Queensland Reconstruction Authority	
Section six:	
Grant assistance	

A variety of assistance schemes have been established to assist parties affected by the disasters. This section discusses the grant assistance measures delivered to affected parties to date, and includes two dashboards providing an overview of:

- Natural Disaster Relief and Recovery Arrangements (NDRRA), and
- Non-Natural Disaster Relief and Recovery Arrangements (Non-NDRRA).

6. Grant Assistance

6.1 Queensland Disaster Assistance Framework

The available assistance schemes are separated between NDRRA and Non-NDRRA funding allocations. For reporting purposes the schemes are divided into the sections outlined below. A number of the grants available have been previously reported as headline metrics in section 3.3 and are repeated for completeness below.

Grant Assistance Available	for Queensland Disasters	
	NDRRA	Non-NDRRA
Individuals and families	 Personal Hardship and Assistance Scheme (PHAS) Emergent Assistance Grants Essential Household Contents Grants Structural Assistance Grants Essential Services and Safety Reconnection Safety Inspections Repairs Additional Services 	 Section 6.5 Premier's Disaster Relief Appeal Australian Government Disaster Recovery Payments
Local Governments, State Departments and Agencies	 Section 6.3 Counter Disaster Operations Restoration of Essential Public Assets Queensland Local Council Package 	
Small Businesses, Primary Producers and Charities and Non-Profit Groups	 Concessional Loans Grants Freight Subsidies for Primary Producers Rural Resilience Fund Operation Clean-up Special Disaster Assistance Loans to Charities and Non-Profit Organisations Exceptional Concessional Loans 	 Section 6.6 Disaster Income Recovery Subsidies Cyclone Yasi Wage Assistance Sport Flood Fight Back Scheme Tourism Industry Support Package Queensland Natural Disaster Jobs and Skills Package Racetrack Recovery Assistance Flood Recovery Program QLD Flood and Cyclone Legal Help

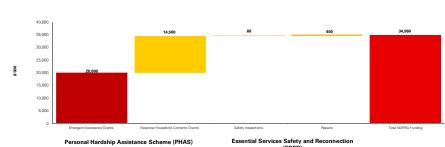

Grant Assistance: National Disaster Relief and Recovery Arrangements (NDRRA) Total Funds Claimed = \$106,780,000 (approximate)

Financial grants are available for families and individuals affected by a natural disaster. These financial grants provide a contribution to families and individuals who are uninsured, or are unable to claim on insurance, and are unable to meet the cost of replacing or repairing essential household goods (and/or their owner-occupied residence) without government assistance. The types of financial grants available include:

- 1. Personal Hardship Assistance Scheme (PHAS)
- Essential Services Safety and Reconnection (ESSR)
 Additional Services (AS)

As at 1 June 2011, NDRRA Funding Grants claimed totalled approximately \$34,960,000

Figure A: Total NDRRA Funds Claimed by Individuals and Families

Personal Hardship and Assistance Scheme (PHAS)

Emergent Assistance Grants (EAG)
The purpose of this grant is to provide assistance in the first few days following a natural disaster for immediate, unexpected needs such as temporary accommodation, food, essential clothing and medication. A grant of \$170 per person, up to a maximum of \$850 for a family of five or more, is available. See figure 6.1

Essential Household Contents Grants (EHCG)
The purpose of this grant is to provide assistance to replace household contents that have been lost or damaged as a result of the Queensland floods or Tropical Cyclone Yasi. To be eligible applicants must:

- live in a disaster declared area where this grant is available, and
 be uninsured or unable to claim insurance to replace the household contents, and
 meet the income and assets tests.

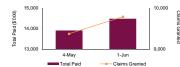

Offered to either a tenant or an owner-occupier, this grant provides up to \$1,705 for an individual adult and up to \$5,120 for couples or families less the amount paid out for the EAG. See figure 6.2

Figure 6.1: Emergent Assistance Grants (EAG)

Figure 6.2: Essential Houshold Contents Grants

--- Claims Granted

Total Paid

Structural Assistance Grants (SAG)
The Structural Assistance Grant is to assist eligible homeowners return their home to a habitable and secure condition. To be eligible for this one-off payment applicants must:

- live in a disaster declared area where this grant is available, and
 be the owner or mortgagee of the property, and
 be uninsured or unable to claim insurance for these structural repairs, and
- meet the income and assets tests.

The grant provides up to \$10,500 for individuals and up to \$14,200 for a couple or family.

Essential Services Safety and Reconnection (ESSR)

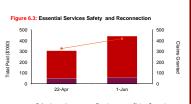

Safety Inspections and Repairs
The Essential Services Safety and Reconnection Grant is to assist homeowners
reconnect essential services, such as electricity, water, gas or sewerage/septic systems,
damaged by the Queensland floods or Tropical Cyclone Yasi. To be eligible for this oneoff payment applicants must:

- live in a disaster declared area where this grant is available, and
 be the owner or mortgagee of the home, and
 be uninsured or unable to claim insurance for reconnecting these essential services,
- meet the income and assets test.

ESSR grants provide up to \$200 per service for safety inspections by accredited inspectors, and if deemed necessary, up to \$4.200 to meet the cost of repairing or reinstalling services to Australian Standards by qualified tradespeople. Safety inspection payments will be refunded to the homeowner and reinstatement costs will be paid directly to the repairer by the Department of Communities. See figure 6.3

Additional Services (AS)

This scheme provides additional community services, such as counselling, information and advice, accommodation and personal support to disaster affected residents. Eligible persons are able to claim during and after the disaster for up to 2 years.

Financial assistance is available to Local Governments, State Departments and Agencies in order to assist in disaster related relief and recovery processes, for example, the restoration of uninsured essential public assets, and the removal of debris. The available assistance schemes include:

- 4. Queensland Local Council Package (QLCP) 1. NDRRA Advance Payments
- Counter Disaster Operations (CDO)
 Restoration of Essential Public Assets (REPA)
- Repair of Infrastructure in Queensland
 Regional Staffing
- Cassowary Coast Support Package

essing of their NDRRA applications. As at 27 May 2011, advance e Authority is liaising with funding yments amounted to \$415,500,000

NDRRA Advance Payments

The Authority sent an information request to affected LGAs on 24 February 2011 requesting applications for CDO and REPA Grants. In parallel with the consideration and approval of applications, advance payments are provided to those LGAs which have submitted a compliant Funding Agreement and list of reconstruction projects. Seven tranches of advance payments have been made from 4M arch 2011 to 27 May 2011. As at 27 May, 55 of Queensland's 73 LGAs had received advance payments totalling \$415.5 million in advance grant payments (excluding GST).

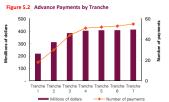

Figure 5.3 Advance Payments to date

The Authority is liaising with funding recipients to facilitate the processing of their NDRRA applications. In parallel, advance

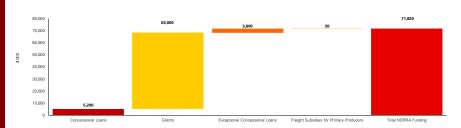

nave been provided to LGAs to assist in planning their reconstruction priorities.

Financial assistance is available to support commerce in disaster affected regions. This is offered in the form of a grant, loan, or subsidy, and is available to eligible Small Businesses, Primary Producers, Charities and Non-Profit Groups. The financial facilities available include:

- 1. Concessional Loans
- Grants
 Freight Subsidies for Primary Producers
- 4. Rural Resilience Fund (RRF)
- Exceptional Concessional Loans
 Special Disaster Assistance Loans to Charities and Non-Profit Groups

As at 2 June 2011, NDRRA Loans and Funding Grants provided or claimed totalled approximately \$71,820,000

iqure B: Total Funds Claimed by Small Businesses, Primary Producers, Charities and Non-Profit Groups

Counter Disaster Operations (CDO)

CDO include any activities undertaken by State and Local Government agencies to provide direct assistance to, and in the protection of, the general public before and during a disaster, including the removal of debits created by the disaster. Eligible entities are able to claim during and after the disaster for up to 2 years. CDO payments are administered by the Authority.

Restoration of Essential Public Assets (REPA)

REPA assists eligible State and Local Governments in the restoration of uninsured essential public assets to a pre-disaster standard or in accordance with current engineering standards (or requirements) and building codes (or guidelines). The claim amount available is variable. Emergent Works submissions to be lodged within 6 months from the date of the NDRRA activation (extensions can be applied for in exceptional

ensland Local Council Package (QLCP)

The QLCP comprises \$330 million from a combination of State and Commonwealth Government funding. The package consists of three parts, both administered by the Authority.

Repair of Infrastructure in Queensland
This \$265 million scheme is designed to fast track the repair of damaged infrastructure owned by local governments across QLD, particularly water and sewerage. A specific allocation of \$145 million has been made to reconstruct Brisbane's ferry terminals and Riverwalk.

Regional Staffing
This scheme provides up to \$50 million of assistance to regional and remote councils to enable them to employ people to perform important clean up and repair work, with the option to provide further funding for employment if required.

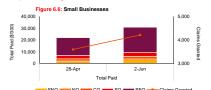

Cassowary Coast Support Package
A \$15 million allocation to restore vital Cassowary Coast Regional Council infrastructure and to restore vegetation and beach damage in the area.

Grants

Three types of grants of up to \$25,000 are available.

งานสมานายการระชะ พาแม้ เาเลขe surrered arrect damage as a result of an eligibli natural disaster. Grants may also be provided to assist with the costs of relocation temporary premises in cases where immediate re-opening of damaged premises is not possible. See figure 6.6

Primary Producers

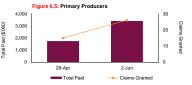

Primary Producer Grants are designed to provide short term targeted assistance for "Initiarly ricultured varieties are designed to provider sind termin dayeried assistance on learn-up, removal of debris, disposal of dead livestock and further restoration following an eligible natural disaster event, in cases where the impact on the farming sector has seen particularly severe, and this could result in production and viability being disrupted beyond the current season. See figure 6.7

Figure 6.10: DEEDI as at 2 June 2011

hese grants are designed to assist charities and non-profit organisations to pay for osts arising out of direct damage caused by the Floods and Tropical Cyclone Yasi. See

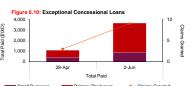

Freight Subsidies for Primary Producers

These subsidies are designed for the use of primary producers in restocking movement. These subsidies are designed for the use or plintary producers in restocking invertible fencing, fodder movements, and other related processes. Up to \$5,000 in assistance can be tailored to address specific deficiencies that have occurred as a direct consequence of an eligible natural disaster. See figure 6.9

Exceptional Concessional Loans

Exceptional concessional loan facilities are offered for Small Businesses, Primary Producers and Charities and Non-Profit Groups, and are available to those eligible in areas directly affected by a disaster. See figure 6.10

Rural Resilience Fund (RRF)

The Federal and Queensland Governments are investing \$20 million to assist the recovery of rural economies and communities impacted by Tropical Cyclone Yasi. The RRF will help fund business and community support activities by providing counselling, social, education, and clean-up services.

Special Disaster Assistance Loans to Charities and Non-Profit

These loans are designed to assist in meeting the needs of associations to re-establish facilities following natural disaster damage. A combination of loan (up to \$100,000) and grant facilities (up to \$5,000) are available.

Disaster Income Recovery Subsidies (DIRS)

DIRS are available to assist employees, small businesses and farmers who have incurred a loss as a direct result of a natural disaster. \$469.70 is available for a single adult per fortnight (rates vary depending on relationship and children). See figure 6.16

Cyclone Yasi Wage Assistance (CYWA)

CYWA is available for employers (including businesses, primary producers and non-profit organisations) whose business has been affected by Cyclone Yasi, to help maintain their workforce. \$469.70 per fortnight is available for each full time equivalent employee for a maximum of 13 weeks. See figure 6.17

Sport Flood Fight Back Scheme

This scheme provides up to \$60,000 of available assistance for sport and recreation clubs to re-establish facilities, and up to \$12,500 to repair or replace equipment that has been damaged in the floods. See figure 6.18

Queensland Natural Disaster Jobs and Skills Package

This package is designed to assist Queensland industries, businesses, apprentices and trainees affected by the floods or Cyclone Yasi, with a view to creating employment and training opportunities in affected locations. See figure 6.19

The Package comprises four key initiatives:

- 1. \$16.55 million to support local communities, industry, and coordinate employment
- 2. \$39.30 million to provide employment and work placements on infrastructure and environmental restoration projects within local communities.

 3. \$14.15 million to support employers in retaining and employing apprentices and
- trainees.
 4. \$13.00 million committed for training to address priority skills development.

7. Racetrack Recovery Assistance

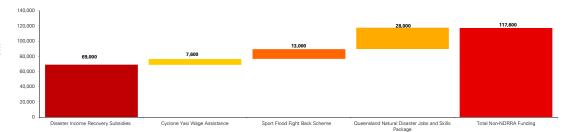

5. Queensland Natural Disaster Jobs and Skills Package 8. Queensland Flood and Cyclone Legal Help

6.2 NDRRA: Individuals and Families

Personal Hardship and Assistance Scheme (PHAS)

Administered by DoC

PHAS grants support homeowners and tenants experiencing immediate hardship. The Scheme includes Emergent Assistance Grants (EAG), Essential Household Contents Grants (EHCG) and Structural Assistance Grants (SAG).

Emergent Assistance Grants (EAG): The purpose of this grant is to provide assistance in the first few days following a natural disaster for immediate, unexpected needs such as temporary accommodation, food, essential clothing and medication. A grant of \$170 per person, up to a maximum of \$850 for a family of five or more, is available.

As at 1 June 2011, claims granted were approximately 55,000, amounting to \$20 million. This figure has remained relatively consistent since 4 May 2011. *See Figure 6.1*

Essential Household Contents Grants (EHCG): The purpose of this grant is to provide assistance to replace household contents that have been lost or damaged as a result of the Queensland floods or Tropical Cyclone Yasi. To be eligible applicants must:

- live in a disaster declared area where this grant is available, and
- be uninsured or unable to claim insurance to replace the household contents, and
- meet the income and assets tests.

Offered to either a tenant or an owner-occupier, this grant provides up to \$1,705 for an individual adult and up to \$5,120 for couples or families less the amount paid out for the EAG.

As at 1 June 2011, claims granted were approximately 9,700, amounting to \$14.5 million. This is an increase of approximately 200 in paid claims since 4 May 2011. *See Figure 6.2*

Structural Assistance Grants (SAG): The Structural Assistance Grant is to assist eligible homeowners return their home to a habitable and secure condition. To be eligible for this one-off payment applicants must:

 live in a disaster declared area where this grant is available, and

Figure 6.1 Emergent Assistance Grants

Source: DoC as at 1 June 2011

Figure 6.2 Essential Houshold Contents Grants

Source: DoC as at 1 June 2011

- be the owner or mortgagee of the property, and
- be uninsured or unable to claim insurance for these structural repairs, and
- meet the income and assets tests.

The grant provides up to \$10,500 for individuals and up to \$14,200 for a couple or family.

Essential Services Safety and Reconnection (ESSR)

Administered by DoC

Safety Inspections and Repairs: The Essential Services Safety and Reconnection Grant is to assist homeowners reconnect essential services, such as electricity, water, gas or sewerage/septic systems, damaged by the Queensland floods or Tropical Cyclone Yasi. To be eligible for this one-off payment applicants must:

- live in a disaster declared area where this grant is available, and
- be the owner or mortgagee of the home, and
- be uninsured or unable to claim insurance for reconnecting these essential services, and
- meet the income and assets test.

ESSR grants provide up to \$200 per service for safety inspections by accredited inspectors, and if deemed necessary, up to \$4,200 to meet the cost of repairing or reinstalling services to Australian Standards by qualified tradespeople. Safety inspection payments will be refunded to the homeowner and reinstatement costs will be paid directly to the repairer by the DoC.

As at 1 June 2011, claims granted were approximately 418, amounting to \$443,000. This represents an increase of 91 grants totalling approximately \$136,000 from the revised May May Report figures. See Figure 6.3

Figure 6.3 Essential Services Safety and Reconnection

Source: AGDA as at 1 June 2011

Administered by DoC

This scheme provides additional community services, such as counselling, information and advice, accommodation and personal support to disaster affected residents. Eligible persons are able to claim during and after the disaster for up to 2 years. AS funding is variable depending on demand and is administered by DoC.

Additional Services (AS)

¹ Revision of May Report data is a result of reporting grant applications received rather than grant applications paid

6.3 NDRRA: Local Governments, State Departments and Agencies

NDRRA funding is available to LGAs and SDAs under the following categories:

- Counter Disaster Operations
- Restoration of Essential Public Assets, and
- · Queensland Local Council Package

As at 27 May 2011, the Authority is liaising with funding recipients to facilitate the processing of their NDRRA applications. In parallel, as at 27 May 2011, advance payments totalling \$415.5 million had been provided to LGAs to assist in planning their reconstruction priorities.

Counter Disaster Operations (CDO)

CDO includes any activities undertaken by SDAs and LGAs to provide direct assistance to (and in the protection of) the general public before and during a disaster, including the removal of debris created by the disaster. CDO payments are administered by the Authority.

Restoration of Essential Public Assets (REPA)

REPA assists eligible SDAs and LGAs in the restoration of uninsured essential public assets to a pre-disaster standard or in accordance with current engineering standards (or requirements) and building codes (or guidelines). The claim amount available is variable and is administered by the Authority.

Queensland Local Council Package (QLCP)

The QLCP package comprises \$330 million from a combination of State and Commonwealth Government funding. It consists of three parts, which are both administered by the Authority:

- Repair of Infrastructure in Queensland (\$265 million) –
 designed to fast track the repair of damaged
 infrastructure owned by LGAs across Queensland,
 particularly water and sewerage.
- Regional staffing assistance (\$50 million) available to regional and remote LGAs to enable them to employ people to perform important clean up and repair work, with the option to provide further funding for employment if required.
- Cassowary Coast Support Package (\$15 million) an allocation to restore vital Cassowary Coast Regional Council infrastructure and to restore vegetation and beach damage in the area.

6.4 Small Businesses, Primary Producers, and Charities and Non-Profit Groups

Concessional Loans

Administered by QRAA

Two types of concessional loan facilities of up to \$250,000 are available to eligible small businesses and primary producers. Both types of loans are designed to assist in meeting the needs of small businesses and primary producers in recovering from substantial natural disasters.

As at 2 June 2011, 39 loans had been disbursed, totalling approximately \$5.2 million to small businesses and primary producers. This represents an increase of 18 loans totalling approximately \$2.3 million since 28 April 2011.

See Figure 6.4 and Figure 6.5

Figure 6.4 Small Businesses

Source: DEEDI as at 2 June 2011

Figure 6.5 Primary Producers

Source: DEEDI as at 2 June 2011

Grants

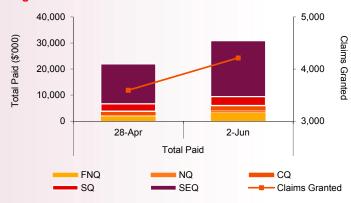

Administered by QRAA

Three types of grants of up to \$25,000 are available to small businesses, primary producers and charities and non-profit groups.

Small Businesses: Small business grants are designed to cover the cost of clean-up and restoration to assist small businesses which have suffered direct damage as a result of the natural disasters. Grants may also be provided to assist with the costs of relocation to temporary premises in cases where immediate re-opening of damaged premises is not possible.

As at 2 June 2011, small business claims granted were approximately 4,200, totalling \$31 million. This represents an increase of approximately 600 claims totalling \$9m since 28 April 2011. *See Figure 6.6*

Figure 6.6 Small Businesses

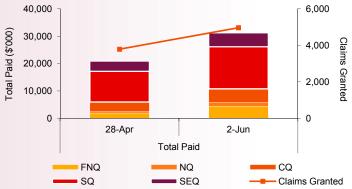

Source: DEEDI as at 2 June 2011

Primary Producers: Primary producer grants are designed to provide short term targeted assistance for clean-up, removal of debris, disposal of dead livestock and further restoration following a natural disaster event. The grants are provided in cases where the impact on the farming sector has been particularly severe and could result in production and viability being disrupted beyond the current season.

As at 2 June 2011, claims granted were approximately 5,000 totalling \$31 million. This represents an increase of 1,200 claims totalling approximately \$10 million since 28 April 2011. *See Figure 6.7*

Figure 6.7 Primary Producers

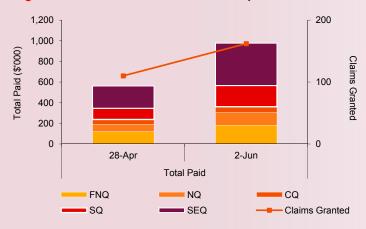

Source: DEEDI as at 2 June 2011

Charities and Non-Profit Groups: Charities and non-profit grants are designed to assist eligible organisations pay for costs arising out of direct damage caused by the Floods and Tropical Cyclone Yasi.

As at 2 June 2011, 162 claims had been granted, totalling approximately \$982,000. *See Figure 6.8*

Figure 6.8 Charities and Non-Profit Groups

Source: DEEDI as at 2 June 2011

Rural Resilience Fund (RRF)

Administered by DEEDI

The Federal and Queensland Governments are investing \$20 million to assist the recovery of rural economies and communities impacted by Tropical Cyclone Yasi.

The RRF will help fund business and community support activities by providing counselling, social, education, and clean-up services.

Freight Subsidies for Primary Producers

Administered by DEEDI

The freight subsidies provide for up to \$5,000 in assistance, which can be tailored to address specific deficiencies that have occurred as a direct consequence of an eligible natural disaster. The subsidies are administered by DEEDI and can be used for restocking movement, fencing and fodder movements.

As at 3 June 2011, 21 claims had been granted, totalling approximately \$22,000. This represents an increase of 10 grants totalling approximately \$8,000 since 28 April 2011. *See Figure 6.9*

Figure 6.9 Freight Subsidies

Source: DEEDI as at 2 June 2011

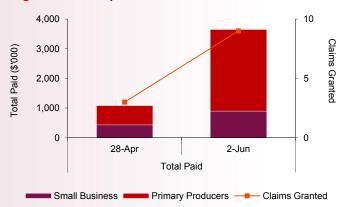

Exceptional Concessional Loans

Administered by QRAA

Exceptional concessional loan facilities are offered for small businesses, primary producers and charities and non-profit groups, and are available to those eligible in areas directly affected by a disaster.

As at 2 June 2011, 9 loans had been disbursed, totalling approximately \$3.6 million. *See Figure 6.10*

Figure 6.10 Exceptional Concessional Loans

Source: DEEDI as at 2 June 2011

Special Disaster Assistance Loans to Charities and Non-Profit Organisations

Administered by QRAA

SDALs are designed to assist in meeting the needs of associations to re-establish facilities following natural disaster damage. A combination of loans and grants of up to a maximum of \$100,000 (loan) and \$5000 (grant) are available.

6.5 Non-NDRRA: Individuals and Families

Premier's Disaster Relief Appeal

Administered by DoC

As at 3 June 2011, \$267 million had been contributed to the Premier's Disaster Relief Appeal and claims granted totalled approximately \$97 million (Round 1: \$70 million, Round 2: \$9 million and Round 3: \$18 million). See Figure 6.11

The Premier's Disaster Relief Appeal provides assistance to individuals and families affected by the natural disasters. Payments are made over three payment rounds.

- Round 1 Applications for Round 1 payments closed 31
 March 2011 for Queensland Floods and 30 April 2011 for Cyclone Yasi. Round 1 payments provided \$2,000 per eligible adult and \$1,000 per dependent child.

 See Figure 6.12
- Round 2 Applications for funds are available for people whose homes have been destroyed or must be demolished as a result of the Queensland floods or Tropical Cyclone Yasi, providing an initial payment of \$10,000 per home destroyed and additional assistance of up to \$140,000 per property. To be eligible for this one-off payment applicants must meet the following criteria:
 - your principal place of residence was totally destroyed, or must be demolished as a result of the Queensland floods or Tropical Cyclone Yasi, and
 - you were the owner-occupier of the principal place of residence at the time of the Queensland floods or Tropical Cyclone Yasi, and
 - your household income is less than \$150,000 per annum. See Figure 6.13
- Round 3 Applications for funds are available for people whose homes have suffered structural damage as a result of the Queensland floods or Tropical Cyclone Yasi, providing \$5,000 towards rehousing or recovery requirements and additional assistance of up to \$75,000 depending on income and circumstances. To be eligible for this one-off payment applicants must meet the following criteria:
 - your principal place of residence suffered structural damage as a result of the Queensland floods or Tropical Cyclone Yasi, and
 - you were the owner-occupier of the principal place of residence at the time of the Queensland floods or Tropical Cyclone Yasi, and

 your household income is less than \$150,000 per annum. See Figure 6.14

Full details on the Premier's Disaster Relief Appeal are available at:

Australian Government Disaster Recovery Payments (AGDRP)

Administered by Centrelink

The Australian Government Disaster Recovery Payment (AGDRP) has been activated to assist people who have been adversely affected by natural disasters, providing up to a maximum of \$1000 per adult and \$400 per eligible child. This scheme is administered via Centrelink.

As at 3 June 2011, AGDRP claims granted were in excess of 664,000, totalling approximately \$765 million.

See Figure 6.15

Figure 6.15 Australian Government Disaster Recovery Payment

Source: AGDA as at 3 June 2011

6.6 Non-NDRRA: Employees, Small Businesses, Primary Producers, and Charities and Non-Profit Groups

Disaster Income Recovery Subsidies (DIRS)

Administered by Centrelink

DIRS are available to assist employees, small businesses and farmers who have incurred a loss as a direct result of a natural disaster. Payments of \$469.70 are available for a single adult per fortnight (rates vary depending on relationship and children).

As at 3 June 2011, claims granted were approximately 60,000, totalling \$69 million. This is an increase in payments of over \$1 million since 22 April 2011. *See Figure 6.16*

Cyclone Yasi Wage Assistance (CYWA)

Administered by Centrelink

CYWA payments are available for employers (including businesses, primary producers and non-profit organisations) whose business has been affected by Cyclone Yasi, to help maintain their workforce. Payments of \$469.70 per fortnight are available to each full time or full time equivalent employee up to a maximum of 13 weeks.

As at 27 May 2011, claims granted were approximately 369, totalling \$7.6 million. This represents an increase of 109 grants totalling approximately \$5.9 million. *See Figure 6.17*

Sport Flood Fight Back Scheme

Administered by DoC

This scheme provides up to \$60,000 of available assistance for sport and recreation clubs to re-establish facilities, and up to \$12,500 to repair or replace equipment that has been damaged in the floods.

As at 1 June 2011, claims granted were approximately 560, totalling \$13 million. This amount has not increased since 20 April 2011. *See Figure 6.18*

Tourism Industry Support Package

Administered by DEEDI

\$12 million (\$6 million from each of the State and Commonwealth) has been allocated to this package which is designed to assure all Australians that many of Queensland's iconic destinations are largely unaffected by the floods. The funding is allocated towards an advertising campaign that is being administrated by a combination of Tourism Queensland,

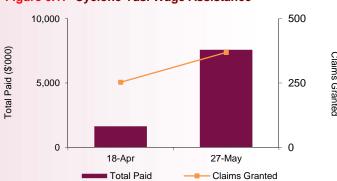

DEEDI, Commonwealth Department of Resources, Energy and Tourism and Tourism Australia.

Queensland Natural Disaster Jobs and Skills Package

Administered by DEEDI

The Queensland Natural Disaster Jobs and Skills Package is designed to assist Queensland industries, businesses, and apprentices and trainees affected by the floods or Cyclone Yasi, with a view to creating employment and training opportunities in affected locations.

The Package comprises four key initiatives:

- \$16.55 million to support local communities, industry, and coordinate employment and skills assistance.
- \$39.30 million to provide employment and work placements on infrastructure and environmental restoration projects within local communities.
- \$14.15 million to support employers in retaining and employing apprentices and trainees.
- \$13.00 million committed for training to address priority skills development.

As at 30 May 2011, total claims granted were approximately 2,500, totalling approximately \$28 million. This represents an increase in claims of approximately 1,000 and \$11 million since 28 April 2011. *See Figure 6.19*

Figure 6.19 Disaster Jobs and Skills Package

Source: DEEDI as at 30 May 2011

Racetrack Recovery Assistance

Administered by DEEDI

The racetrack recovery assistance provides \$2.35 million for racecourses and country track clubs to repair disaster affected infrastructure, in order to meet health and safety standards. This assistance package is administered by DEEDI and also allows clubs to meet the shortfall from insurers.

Flood Recovery Program (FRP)

Administered by DEEDI

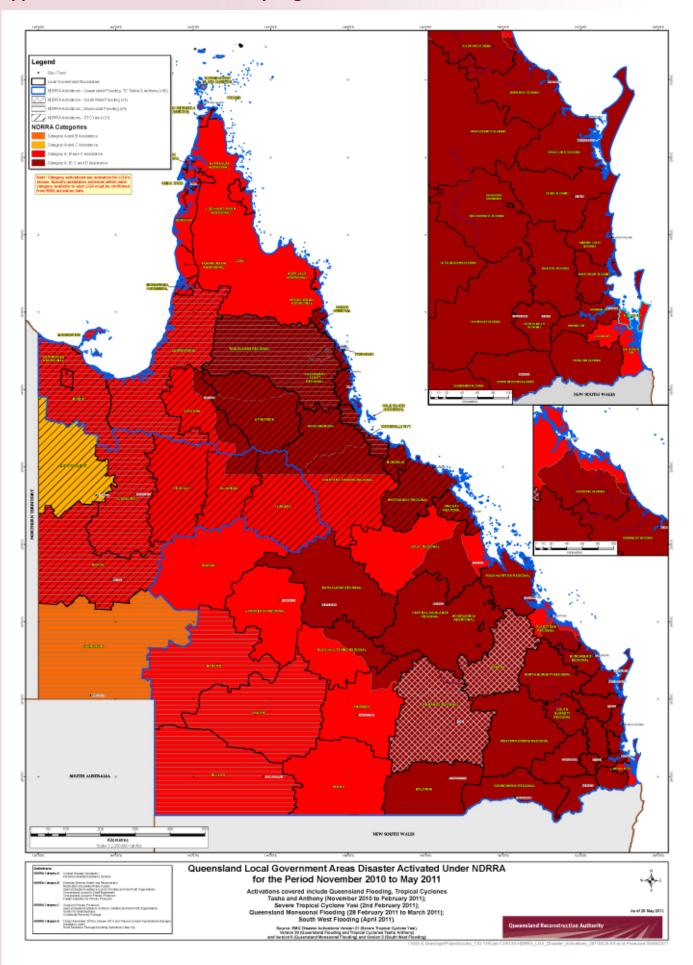

Similar to the RRF, the FRP has been allocated \$2.35 million to assist primary producers in flood affected areas. This program is administered by DEEDI and provides for assistance with clean-up initiatives, financial counselling, and biosecurity issues management.

QLD Flood and Cyclone Legal Help

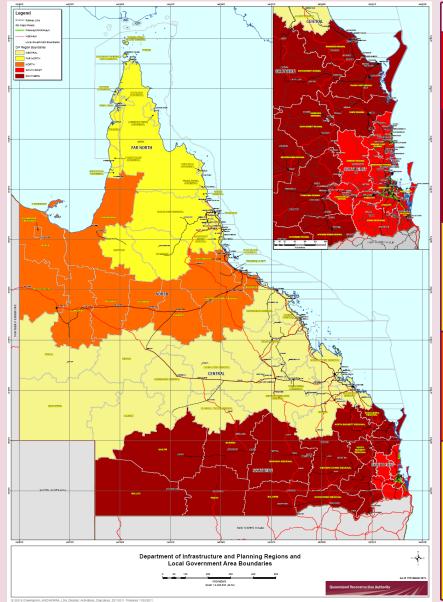

Administered by Legal Aid Queensland

This program of assistance provides legal support to people affected by a disaster.
